

Dear Students and Parents,

In celebration of Skyline's 30th Annual Science Fair, we plan to have an exhibit of engineering projects that the students share from their own collections and kits.

Skyline will provide table space for students to display their projects. We will do our best to monitor the projects but want students and parents to know there is the possibility that pieces may be lost. SKYLINE WILL NOT BE RESPONSIBLE FOR LOST PIECES.

Projects may be brought to the Science Fair on Thursday, March 16 before 4:00 p.m. and must be picked up by Friday, March 17 by 4:00 p.m.

If you plan to display a design, please complete the following information and return it to the TARGET room.

Name _____ Class _____

____ YES, I plan to display an engineering project at the Skyline Science Fair. I acknowledge that Skyline will not be held responsible if any pieces get lost.

Type of Kit: LEGO ____ K'NEX ____ Other (specify) _____

Name of project/design: _____

Approximate size (example: 8" x 12" or 3" by 15", etc.): _____

Parent Signature (K-8): _____
